

BCS Diploma in Business Analysis Reading List

Course Name: Advanced Business Analysis

Reading for the Advanced Business Analysis Training Course is based on the BCS publication 'Business Analysis'. Please note that delegates from the same organisation should not attempt to share books as Modelling Business Processes and Business Analysis Practice exams are 'open book' allowing delegates to reference the reading material during the exams. Books cannot be shared during the exams.

The Foundation Certificate in Business Analysis is a closed book exam.

As this is an intensive course delegates are recommended to spend as much time as possible completing the pre-reading before attending the course.

The following book is required reading for attendees of this course:

Business Analysis - Second Edition (Cadle, Eva, Hindle, Paul, Rollaston, Tudor and Yeates)
Published by: The British Computer Society
ISBN 1906124612
Price: £29.95 from BCS / Amazon

Module: Foundation Certificate in Business Analysis

The syllabus for this course and exam is entirely based on the BCS publication **Business Analysis - Second Edition**. It is a prerequisite of attendance that you purchase and read this book before attending the course.

In addition the following chapters of this book relate to the modular certificates:

Module: Modelling Business Processes

Chapter 8

Module: Business Analysis Practice

Chapters 1-7, 13 and 14
